DEER  
PROCESSING

*Due to health code laws we are not allowed to let any non-inspected meats (deer) come into contact with our inspected meats we sell to the public. However we will gladly process deer meat according to the following criteria:*

- Deer is field dressed, quartered, and hide is removed (we are not allowed to have any meat in the building with the hide still attached)*
- Deer is brought and kept in its own cooler (as stated above health code requires our inspected meats not to come into contact with non-inspected meats)*
